

Hitha Shri Nagaruru

Irvine, CA | (617) 892-1409 | hnagarur@uci.edu | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

F-1 student at UCI (MS CS, Dec 2026). CPT-eligible for internship roles. No sponsorship required for internship. Seeking Data Analytics internship for Summer/Fall 2026.

EDUCATION

University of California, Irvine

Sep 2025 – Dec 2026

Master of Computer Science | GPA: 3.83/4.00

JSS Academy of Technical Education, Bengaluru

Dec 2020 – Jun 2024

BE in Computer Science and Engineering | GPA: 3.81/4.00

EXPERIENCE

Bosch Limited — AI Engineer

Aug 2024 – Aug 2025

Digitization & Industry 4.0 — full-time industry role prior to MS

- Eliminated the need for **150+ Power BI licenses** by building a Daily Leadership Review chatbot (Azure OpenAI + FastAPI) integrated directly with live Oracle MES database, delivering real-time KPI insights to plant leadership.
- Designed an **end-to-end OCR data pipeline** (Tesseract, PyMuPDF, Pandas) converting machine-generated PDFs into structured Excel datasets, feeding Power BI dashboards for real-time OK/NOK defect tracking and faster quarantine decisions.
- Executed a full **EDA pipeline** on diesel pump calibration bench data — surfaced inefficiencies improving productivity by 2.6% and cutting cycle time by 9 seconds, avoiding ₹40M (~\$480K) in capital expenditure.
- Deployed a **Python-based OCR web app** on-premise (Flask + Waitress/NSSM) for secure digitization of sensitive HR documents, eliminating external data exposure risk.

PROJECTS

Validation Framework for LLMs

Jan 2026 – Present

- Developed structured **PASS/FAIL reporting** with calibrated 0–1 scoring across toxicity and accuracy dimensions, enabling systematic quality measurement of LLM outputs.
- Integrated **web retrieval + BM25 ranking** to surface supporting evidence for factual grounding checks — translating unstructured model outputs into auditable analytics.

Tokyo 2021 Olympics Dataset Analysis

Aug 2023 – Sep 2023

- Analyzed Olympics dataset using Python (NumPy, Pandas, Matplotlib) to uncover trends in **medal distribution, gender representation, host-nation advantage**, and impact of COVID-19 on participation.
- Delivered structured insights through exploratory data analysis — synthesizing multiple variables into clear, stakeholder-ready findings.

SKILLS

Analytics & Visualization: Power BI, Matplotlib, EDA, Statistical Analysis, Hypothesis Testing, Anomaly Detection

Data Engineering: SQL (PostgreSQL, Oracle, MySQL), PySpark, Databricks, ETL/ELT, OCR (Tesseract, PyMuPDF), Pandas

Languages & Tools: Python, Azure ML Studio, FastAPI, Flask, Git, Excel

AI / Automation: Azure OpenAI (GPT-4o), RAG, Prompt Engineering, LLM Evaluation
